Subject: FOIA National TV Show Request for audio/video assets for Jody Herring Criminal Case in 2015

Hello, my name is Ricardo and I work for the television show "Crime Watch Daily with Chris Hansen." I just spoke with Elizabeth in your office and she mentioned to submit this request in writing.

I am interested in obtaining some visual assets for the crime case of Jody Herring from 2015. John Treadwell was the prosecutor in the case. She was convicted and sentenced for killing 4 people. There are various surveillance videos. There's a jail cell video showing Jody Herring talking. There's also an interview with a Vermont State Police detective (Det. Sgt. Todd Baxter) the next day. Additionally there's some police body cam footage of when the officers first arrived at one of the crime scenes. I'd be interested in all of these assets as well as any other visual or audio elements that may be available for this case, such as 911 calls etc...

Please let me know if you may be able to help me with this request.

Look forward in hearing from you.

Thank you,

Ricardo Ramos
